

Dear Sullivan Group and the JSSCC Organization,

My name is Jaydee Delizo and I was one of the 15 students sent to China for the Youth Ambassador Program. I can't even put into words how grateful I am for you. Thanks to your scholarship I could see the wonders of China and experience an unforgettable trip. Because of your generosity, I saw a whole new world, compared to my life here in America. During the trip, we explored all of the things Beijing had to offer. From new people to new food, and some famous landmarks like the Great Wall, The Forbidden City, and the National Museum. Although we visited all these different places, my favorite part of the trip was visiting the local schools. During these visits, we explored their beautiful campuses and all of the incredible classes they had to offer. However, the highlight of these visits was the ability to interact with the students. We had a chance to communicate with students our age and learn everything about their lives during school. We learned about the shocking differences and similarities between American and Chinese students. With all things considered the trip was unforgettable and wouldn't have happened without your support. Because of your generous donations to the JSSCC organization the communication between young students from China and America is ever-growing. Thank you once again for your incredible support.

Sincerely,

Jaydee Delizo
