Capital College & Career Academy

Capital College & Career Academy (CCCA) is a public charter school located at 501 Arden Way, Sacramento, CA 95815, dedicated to preparing students for success in college, careers, and a global society. CCCA combines strong academics with real-world learning experiences. Through dual enrollment, students have opportunities to take college courses and

earn college credits while still in high school. Our Career Education Program connects students with professionals and workplaces, helping them explore career pathways and gain firsthand experience beyond the classroom—from career exposure and exploration to paid employment through our internship program. Hands-on learning is an essential part of our instructional approach, allowing students to connect what they learn in the classroom with real-world skills and experiences.

Mandarin Program

The CCCA Mandarin Program is an important part of the school’s global education experience. Students can take Mandarin 1 through Mandarin 4 as high school credit-bearing courses, developing proficiency in listening, speaking, reading, and writing while building intercultural understanding.

Beyond the school day, CCCA offers a growing range of online and in-person Mandarin learning opportunities, including after-school classes and future weekend programs. Students also participate in hands-on cultural experiences, cultural activities and performances, community events, HSK Chinese proficiency testing, and educational trips to China, providing authentic opportunities to experience both the language and culture. CCCA also supports the broader Mandarin education community by organizing professional development, workshops, networking opportunities, and educational events for Mandarin teachers.

Together, these programs connect college preparation, career exploration, Mandarin learning, hands-on cultural experiences, and global engagement, giving students multiple pathways to learn, explore, and prepare for their future.
